

PUBLIC TRANSPARENCY REPORT **2025**

Perpetual Asset Management, Australia

Generated 24-11-2025

About this report

PRI reporting is the largest global reporting project on responsible investment.

It was developed with investors, for investors. PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders. This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2025 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

Disclaimers

Legal Context

PRI recognises that the laws and regulations to which signatories are subject differ by jurisdiction. We do not seek or require any signatory to take an action that is not in compliance with applicable laws. All signatory responses should therefore be understood to be subject to and informed by the legal and regulatory context in which the signatory operates.

Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

Data accuracy

This document presents information reported directly by signatories in the 2025 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

Perpetual has undergone significant changes to its business over recent years. In our asset management business, we have grown from an Australian-focused investment manager to become a truly global manager of investment boutiques offering world-class investment capabilities across equities, credit and fixed income and multi asset strategies, across multiple markets.

At front of mind for us in undertaking this growth was strengthening further our commitment to responsible investment, or ESG - a global trend we believe will only continue to grow strongly into the future. The acquisitions of ESG pioneer Trillium Asset Management in 2020, and in 2022 the Pandal Group (which includes ESG engagement and impact specialist Regnan) are testament to this. We recognise that each investment boutique within the Perpetual Group has a commitment to ESG as an intrinsic part of their individual investment approach. As a result, the Perpetual Group now encompasses a number of individual distinct PRI investor signatories, offering a diverse range of ESG strategies and products to our clients.

Within Perpetual Asset Management Australia, each of our investment teams has continued on its ESG journey over the reporting year. We continue to progress our ESG integration and stewardship activities across equities and credit and fixed income. In particular, our Australian equities proprietary research team's increasing focus on climate and other environmental themes reflects the increasing materiality of ESG issues to their investment decision making. We continue to engage and advocate regarding ESG issues where we can have an impact on material investment issues.

We remain committed to expanding our ESG knowledge and expertise across the Perpetual Group. While we have achieved significant ESG milestones to date, we believe harnessing our now-considerable ESG capabilities across the business will present some exciting opportunities for our clients to exercise their demand for products that align with their ESG expectations.

Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
 - refinement of ESG analysis and incorporation
 - stewardship activities with investees and/or with policymakers
 - collaborative engagements
 - attainment of responsible investment certifications and/or awards

Perpetual Asset Management, Australia was recognised as a "Responsible Investor" in Australia/New Zealand by the Responsible Investment Association Australasia (RIAA) in RIAA's most recent assessment. RIAA state "Responsible Investors demonstrate a commitment to responsible investing; the explicit consideration of environmental, social and governance (ESG) factors in investment decision making; strong and collaborative stewardship; and transparency in reporting activity, including the societal and environmental outcomes being achieved."

Within Perpetual Asset Management, Australia we continue to progress our ESG integration and stewardship activities and our range of dedicated ESG products. Our Australian equities proprietary research team's increasing focus on climate and other environmental and ESG themes in its research work has been a feature. The team's primary ESG integration and engagement tool, the ESG Workbook, continues to be embedded into the investment process. Similarly the Credit and Fixed Income team now fully incorporate their ESG Risk scoring process into their assessment of corporate credit issuers. In terms of dedicated ESG products, we now offer investors Australian equities (including a listed investment company alternative), credit and multi-asset products.

Section 3. Next steps

- What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

Perpetual is dedicated to further embedding responsible investment principles across all facets of our business. Our approach is rooted in building on the momentum of previous developments, such as the acquisition of the Pandal Group and the ongoing integration of ESG considerations into our investment processes. As an active fundamental investor, Perpetual Asset Management, Australia's focus remains on active ownership and engagement. We continue our active involvement across various industry associations and initiatives supporting responsible investment, including active membership and participation within the Responsible Investment Association Australasia (RIAA) certification programs and various working groups, and the Financial Services Council (FSC).

Section 4. Endorsement

'The Senior Leadership Statement has been prepared and/or reviewed by the undersigned and reflects our organisation-wide commitment and approach to responsible investment'.

Name

Amanda Gillespie

Position

Chief Executive, Perpetual Asset Management Australia

Organisation's Name

Perpetual Asset Management, Australia

● A

'This endorsement applies only to the Senior Leadership Statement and should not be considered an endorsement of the information reported by the above-mentioned organisation in the various modules of the Reporting Framework. The Senior Leadership Statement serves as a general overview of the above-mentioned organisation's responsible investment approach. The Senior Leadership Statement does not constitute advice and should not be relied upon as such. Further, it is not a substitute for the skill, judgement and experience of any third parties, their management, employees, advisors and/or clients when making investment and other business decisions'.
